SAN ANDRES, Cal., December 24. A disastrous cave-in occurred Sunday evening in Lane mine, owned by Howard & Hobart, located on the west edge of the Angels, by which sixteen men were buried. They were supposed to be dead. Nineteen men were sent into a drift on a 400-foot earth and rocks fell, burying sixteen men underneath the debris. Thomas Corwin and two Italians managed to escape, although Corwin was badly injured. Corwin said that the par-titions were leaning badly when he went into the drift, but no one suspected that there was any danger of a cave-in. When it came they were all unprepared. He and the two Italians escaped as soon as they heard the timbers crack. The others also started to reach a place of safety. Immediately after the accident men were let down the shaft and on entering the mouth of the drift, commenced digging in the debris found their attempt almost useless, as the timbers seemed to have been roofing. By last evening the rescuing party had succeeded in getting 8 feet into the pile of earth and the timber and none of the victims had been reached. There is no prospect of impressed me as being a man who is doing much to build up the South. 1
